GET THE BEST

Whether you're an owner, a driver - or maybe even both - finding the right commercial vehicle for you is a crucial decision. We've poured our decades of experience creating commercial vehicles into our 3.5t Gafter range, to make them the smartest choice for your business.

Everything about the Gafter is designed to give you maximum flexibility, comfort and convenience, with a selection of bodies, cab formats and wheelbase options. And the excellence of our vehicles is matched by our legendary dealer support network and customer CARE programme, which are unrivalled in the industry.

The 3.5t Grafters are our toughest, roughest, smoothest, comfiest, plushiest, safest commercials ever.

Nikki King OBE,
Managing Director,
Isuzu Truck (UK) Ltd

GET RELIABILITY

TOUGH TIMES CALL FOR TOUGH TRUCKS

So it's good to know the entire 3.5t range has been tested to destruction, making them incredibly dependable workhorses with an amazing reliability record. It's not surprising so many existing owners repurchase our trucks.

At the heart of the Grafter is a powerful yet economical Isuzu 3.0 litre, 150bhp turbocharged and intercooled diesel engine. More than enough power for 3.5t, and still ample for its designed Gross Train Weight of 7.0t.*

Top Gear

Combined with a silky smooth 5-speed fully synchromesh gearbox, the Isuzu Grafter is the ultimate vehicle for the urban environment. And as every model uses EGR with a diesel particulate diffuser to meet Euro emissions standards, you're free to come and go in London's Low Emission Zone.

A 3 year unlimited mileage warranty package, and our unique Isuzu Commercial Assistance roadside and recovery service, both come as standard. So peace of mind is also guaranteed.

Exhaust Gas Recirculation (EGR) for the latest Euro emissions standard.

warranty

*Tachograph and driver licence regulations may apply.

GET COMFORTABLE

ENSURING YOUR COMFORT AND SAFETY BEHIND THE WHEEL IS CRUCIAL

For starters, you can specify a highly accessible three-seater narrow cab, a more spacious three-seater wider cab or our six-man crew cab.

Whichever one you choose, you'll find a generous specification that includes car-like controls, supportive seats, excellent visibility, as well as plenty of big truck features including keyless door entry, central locking, and a Clarion RDS radio and CD player.

All Grafters have dual airbags fitted as standard - yet another industry first. And our aerodynamic hexapod cab complies with the most stringent crash test specifications.

Cabs fit for kings

A choice of cabs, all with top class specification.

Dual airbags

Dual airbags fitted as standard across the range.

GET THE PERFECT BODY

GET THE BODY YOU WANT - AND EVERYTHING THAT GOES WITH IT

The 3.5t Graftor chassis cab is available with either single or twin wheels on the rear axle. The single rear wheel chassis cab is lighter overall, so it actually offers more payload, whilst the twin wheel option provides greater stability, and spreads the load when you're working off-road.

Our chassis cabs and wheelbase options will accommodate a range of custom-built bodies to suit the needs of your business.

Factory Fitted Tipper and Dropside Body Options

We offer a one-stop shop for these types of bodies, which are fitted online at our assembly plant in Portugal. There are three rugged steel tippers, which are all available on our single and twin rear-wheeled models, and even on our wide cab option. We only offer our lightweight aluminium dropside body on our single rear wheel model.

Strength has to be built on solid foundations. Beneath the good-looking cab exterior is a proven chassis that is sold, driven, used and abused worldwide.

It all adds up to an incredibly robust and reliable workhorse that can be configured to suit your exact needs, and can take anything you throw at it.

GRAFTER 3.5T

GET BETTER CARE

THE CUSTOMER CARE PROGRAMME

At Isuzu we've taken customer care to a whole new level. When you buy any Isuzu truck you will get a letter with the direct telephone numbers (including mobiles) of every key member of the team. These include the Customer CARE Liaison Executive who is assigned to you throughout your vehicle's warranty period.

What's more, we're so committed to customer service that the letter will also contain the details of our Managing Director, Nikki King, including her home phone number. That's what we call personal service. So it's hardly surprising that we picked up the prestigious European Business Award for Customer Focus.

You don't work 9 to 5. So neither does our Customer CARE Team.
